MINI SPLIT TRAINING

DAY 1

- New product overview and **application** discussions
- Refrigerant Piping, evacuation, charging procedures, equipment, and guidelines for use
- Daikin Mini and Multi Split and SkyAir product, technology, installation and start up presentations
- Wiring and Mini Split control options (2 and 4 wire options)
- **D CHECKER** Software Presentation and Demonstration
- **DZK Zoning** overview
- **VRV 3,4 & 5 ton** single phase overview

DAY 2 Troubleshooting

- Basic Mini split principles of operations
- Review or troubleshooting guides and manuals provided
Hands on trouble shooting and Tear down on Live equipment. Class size of 12. Please bring basic tools and meters

Day one is required for participation in day 2. Day one may be taken without taking day two troubleshooting.

Training materials will be provided.

Bring your laptops if you use one.

These are Daikin sanctioned courses.

Cost of day one is \$35 and \$40 for day two.

Coffee, snacks, and lunch provided both days
