

Hayward Flow Control Products

Stimulus Package “Buy American” Requirement

The following information is designed to clarify how Hayward products comply with the “Buy American” requirement contained in Section 1605 of the American Recovery and Reinvestment Act of 2009. This act clearly states that none of the funds made available through the act can be used for a project for construction, alteration, maintenance, or repair of a public building or public work unless all of the steel, iron, and manufactured goods used in the project are produced in the United States.

The following list of Hayward products fully comply with Section 1605 of the ARRA 2009, and are engineered, manufactured, tested, and inspected at our Clemmons, NC plant. To obtain reference information on Section 1605 of ARRA 2009, go to www.recovery.gov and click on the link at the bottom of the page for specific details.

Hayward Products in Compliance with Section 1605 of ARRA 2009

Industrial Ball Valves

- TB Series Industrial True Union Ball Valves
- Three-Way True Union Ball Valves
- TB Series Industrial True Union Ball Valve Options
- Lateral Three-Way True Union Ball Valves

Industrial Check Valves

- TC Series Industrial True Union Ball Check Valves
- TC Series Industrial True Union Ball Check Valve Options
