New Retaining Nuts for Signet Integral Products

We are offering a total of three retaining nuts to our Signet product line to improve compatibility and durability of Integral products. The retaining nuts being offered are PP Black, PVDF Natural, and the already existing Valox Yellow.

Retaining Nuts

Mfr. Part No.	Code	Description
3-8050.526-3	159 500 411	Retaining Nut, NPT, PP
3-8050.526-4	159 500 412	Retaining Nut, NPT, PVDF
3-8050.526-1	159 001 574	Retaining Nut, NPT, Valox

Replacement Kits

Mfr. Part No.	Code	Description
3-8050.390-3	159 310 116	Retaining Nut Replacement Kit, NPT, PP
3-8050.390-4	159 310 117	Retaining Nut Replacement Kit, NPT, PVDF
3-8050.390-1	159 001 702	Retaining Nut Replacement Kit, NPT, Valox

Flow Sensor Integral Mounting Kit, NPT

Mfr. Part No.	Code	Description
3-8051	159 000 187	Flow Sensor Integral Mounting Kit, NPT, Valox
3-8051-1	159 001 755	Flow Sensor Integral Mounting Kit, NPT, PP
3-8051-2	159 001 756	Flow Sensor Integral Mounting Kit, NPT, PVDF

Effective immediately, Signet integral products will be shipped with the recommended retaining nut based on the sensor. For example, a 2551 with PP body will be shipped with a PP Black retaining nut, while a 2551 with PVDF body will be shipped with a PVDF Natural retaining nut. Although the yellow Valox retaining nut is available to order, we highly recommend selecting a retaining nut that is most appropriate for your system.

The PP and PVDF retaining nuts will be available for the following products below. Valox retaining nuts can be ordered separately.

- 2537 Paddlewheel Flowmeter
- 2551 Magmeter Flow Sensor
- 8150 Integral Battery Powered Totalizer
